3 DECADES OF LEGACY

Transforming workspaces since 1995

QUALITY & EXCELLENCE IN EVERY NUT AND BOLT

Backrest

Passed fatigue & static-load tests. Remains functional after 120,000 and pull iterations

Fabrics

Repeatedly passed color fitness test (water resistance, sweat resistance, artificial light resistance and abrasion resistance), tearing strength tests, and flame retardant tests, to ensure the endurance of fabrics.

Gaslift

Repeatedly passed three critical tests: the dynamic drop impact test, the rotating endurance test, and the fatigue test.

Seat

Passed rotating endurance tests, dynamic drop impact tests, and fatigue tests. Successfully went through 100,000 iterations of high density 57kg (125lbs) drop impact tests.

Castors

Passed the international standard fatigue tests. Survived 100,000 iterations of compression by a 113kg(248.6lbs) load.

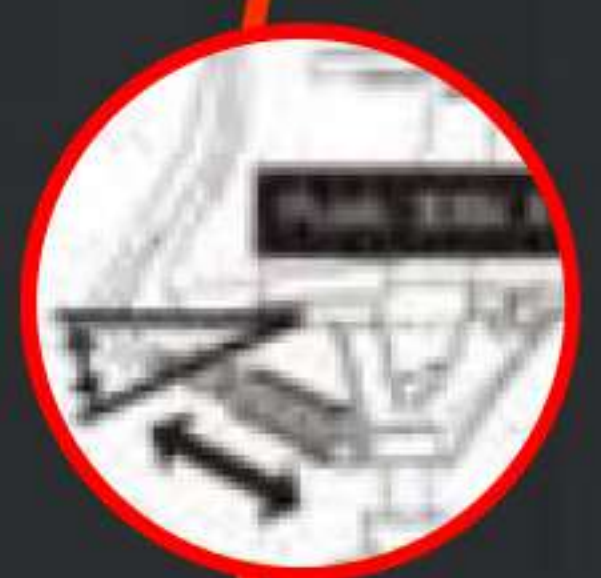

Legs & Base

Passed the international standard static-load test. The structure remained intact after twice being horizontally compressed by a 108,976kb (2,500lbs) load.

Mechanism

Our high-quality synchro-tilt mechanism passed a 300,000 cycles stress test in which the backrest was pushed to its extreme angles

Armrest

Passed vertical & horizontal static-load tests. Capable of bearing the weight of 75kg (165lbs) adult.
